

Self study workshop for M.Sc. - I students

and

Internal Project presentations for M. Sc. – II students

Self study workshop

All the M.Sc. Part I students are hereby informed that department is organizing a two days workshop on 16th and 17th Feb 2011 based on the “Self Study Kit” provided by the department. Purpose of the workshop is to utilize the kit for better understanding of the core subjects of instrumentation like signal conditioning, and electronic instrumentation.

All the M.Sc. Part I students must participate in the workshop along with the “Self Study Kit” issued to them by the department. They will be assisted by their seniors in designing, assembling and testing of various circuits using available components. Faculty members will guide the student mentors and junior students as and when required.

The last session of the work shop is spared for an exhibition of circuits and presentations by the students. Best Circuit, Best Student Mentor and Best group presentations will be suitably rewarded.

The list of junior’s groups, their student mentors and associated faculty member is as follows. All the student mentors are requested to gather for the meeting regarding preparation of workshop on 5th February 2011 at 3.00 pm in department.

Internal Project presentations

Internal Project presentations for M. Sc. – II students are scheduled on 16th and 17th February 2011 between 10.00 – 6.00.

Presentations for student mentors for Self study workshop will be arranged later. Rest all should prepare a final presentation of their project along with a foolscap summary.

Each one will have to present his/her project for 20-25 minutes followed by discussions and question answer session. Participation in discussion by the students in audience will carry marks for them. Students must carry their day to day project logbook during this period.

Details of Self study workshop on 16th and 17th February 2011

Timing: 10.00-6.00
